

# CREATING IBM CLOUD SERVICE

Date	01 November 2022
Team ID	PNT2022TMID33446
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM USING IOT
Team Members	Suriyaprakash S, Rajesh G, Ragul R, Sujith M.

The screenshot displays the IBM Cloud Dashboard interface. At the top, a navigation bar includes the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user profile (SURIYAPRAKASH S's A...). The main content area is titled 'Dashboard' and features a 'For you' section with five recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), and 'IBM Watson Knowledge Catalog' (Help your data citizens easily find, prepare, understand and use the data they need through an enterprise data catalog & governance platform). Each action card includes a 'Getting started' button and a duration (10 min, 7 min, 2 hr, 2 min). Below the 'For you' section, there are three more cards: 'User access' (Manage users), 'News' (Unified Key Orchestrator Now Supports Easy), and 'Planned maintenance' (View all).
