

# Empathy Map

Gas leakage is a major problem in various areas like industrial sector, residentials, etc. Gas leakage is a source of great anxiety with ateliers, residential areas and vehicles like Compressed Natural Gas (CNG), buses, and cars which are run on Gas powers. One of the preventive methods to stop accidents associated with the gas leakage is to install a gas leakage detection kit. The aim of this paper is to propose and discuss a design of a gas leakage detection system that can automatically detect, alert and control gas leakage.

**Designed For:** Gas Leakage Monitoring and Alerting System

**Designed By:** SURIYAPRAKASH S, SUJITH M, RAGUL R, RAJESH G
